A GREAT YEAR

This year was a great one for me. I will never forget all the people I met along my living in the United States. Right now the hardest question for me to answer is: Are you looking forward to going back? I really don't know the answer. Of course, I want to see my family and my friends again, but what about all those friends in here. I will be leaving with one thought in my mind: ARSHIP SEMI-FINALISTS: Flo- when I will have money to come back! Anyway, I want to finish saying thank you to everybody.

Americans are generally very congenial, honest people who make themselves very easy to like. American life is easy to adjust to, but I am afraid that I will miss the freeways, the football games, the slang and, most of all, the pizza.

Acalanes is a very good school friendly and pleasant to know when you can finally break through the facade of egotism and self-centeredness which surrounds so many of the students. This attitude of aloofness seems lanes society and it dulls the

Baccalaureate Service will take place on the Acalanes Memorial Field at 6:00 p.m., Sunday, June 7. Mr. Theodore Alexander, a Jewish Cantor, will give an opening prayer. A talk will be given by a Congregational minister, Dr. Mechel A. Vallon. Most Reverend James J. Wade, Catholic priest, will give the closing prayer. COMMENCEMENT

Commencement Exercises will take place at 7:00 p.m. Thursday, June 11. This inspiring ceremony is perhaps one of the most memorable occasions in the life of a high school student. Selections will be played by the Acalanes Symphonic Band, under the direction of Mr. Elvo D'Amante, and the A Capella Choir, under the direction of Mr. Richard C. Hansen, will sing a selection. The invocation will be given by a guest speaker. Senior class president Mark Silliphant will give speech, followed by that of Jeff Hunter, the representative speaker of the senior class. Presentation of awards and the class of 1964 will be made by Stanley will be handed out by Mrs. Duncan H. Knudsen, of the Acalanes Board of Trustees. Mrs. Knudsen will be assisted by Mike Hallock, student body president.

This year has been one of new experiences, new friends, and many wonderful times for me, however, the understanding that in many ways and the kids are I have gained of people, particularly Americans, has been more rewarding than any single experience in my short past life. SENIOR TEACHERS FEATURED OLSON, BARNETT, WILDE AND MAYES

He consistently turns out Olson and Mr. Wilde serve as a #1 team but still finds time for Senior Class advisors as well as teaching and his hobby, playing teaching the American Govern- golf. Mr. Barnett received his ment classes. Mr. Barnett, coach teaching credentials at two colof the basketball team, also teaches Physiology to about 2/3 of the Senior Class, while Mr. Mayes teaches three of the English IV classes, and Journalism; and is head of the English department.

MR. OLSON is well known at Acalanes by students who have been in his U.S. History, English, Study Halls and American Government classes. He has been teaching for nine years, having received his credentials from San Francisco State, and his degree

from Cal at Berkeley

Mr. Olson first worked at Eureka High School, where he was track coach, and then at Eureka Continuation School, where his wide-spread duties included teaching Wood Shop, Typing, History, English, Government, Geography, and Math, as well as finding numerous jobs for students, working in social welfare, and cooperating with the probation office. Mr. Olson was next at Carlemont High School coaching track and teaching English. Following this he spent four years in the real estate and insurance business which he finally quit as it lacked fulfillment. Since then Mr. Olson has been at

Now living in Martinez (no, not Petaluma), Mr. Olson spends any spare time he gets skiing or sailing, when not with his wife, 2 children, and calico cat.

MR. WILDE has been teaching such subjects as American Government, World History and Georgraphy, and Modern European History, for ten years at Acalanes.

His education includes going to Washington University in Missouri, attending the Sorbonne of Paris and the University of California at Berkeley. travels have also made up a large part of Mr. Wilde's life, the occasion for which was his sabbatical leave in 1960.

This summer Mr. Wilde plans to leave his bachelor home in he tries to instill in his students, Berkeley to travel East as far as is evident from the humorous, as New York, probably visiting entertaining way his classes are the World's Fair.

> For four years Mr. Barnett taught at Davis High School, but has been teaching at Acalanes since 1959. Next year he plans to move to Los Gatos where he will devote himself strictly to coaching at a new school, West Valley Junior College. Mr. Barnett answers the comments of his students who are reluctant to see him go, with, "This year's senior class was so outstanding, I just had to go out with it."

At present Mr. Barnett is living in Concord with his wife and his three daughters.

MR. MAYES has been at Acalanes for twelve years teaching English classes, Journalism, and

A large variety of schools have contributed to his education. First were the University of Illinois and the University of Detroit at which Mr. Mayes majored in Engineering. He then spent one year at the Goodman Theater, which he followed with a program of Humanities at the University of Chicago. Following this he rereived his A.B. while at Cal at

This summer Mr. Mayes hopes to travel to Santa Fe, New Mexico, and maybe to the World's Fair.

Mr. Mayes lives in San Francisco with another bachelor and spends his spare time water skiing, playing tennis, and cooking.

Because of the classes these teachers have, they have become espcially wll known to the seniors. Each of these teachers tries to get across a little bit more than just the subjects they teach. Mr. Olson believes that what students need to gain above all is an understanding of themselves. It is Mr. Wilde's aim to teach his students to not only think for themselves but to communicate their beliefs clearly. A feeling of responsibility and a well rounded character are what Mr. Barnett believes important for his students. For Mr. Mayes an interest to learn which must come from an interest in the subject is what

After (literally and figuratively) we decided that Senior Hall and some other traditions we'd looked forward to were not such a big deal. But we found other feelings of superiority. Frosh and sophs stand out of your way when you, a senior, go by (at least if you weigh 250 and are packing a club). Teachers, believing you Responsible, accept more passes with less questions, but less snow jobs on papers. Then, too, you feel the immediacy of the school - it's your last year - and you want to try all those things

Fun, Fun, Fun! Nope, getting into so it seems.

Early in September, 1960, a new crop of excited, wide eyed, and slightly scared freshmen crossed the threshold into Acalanes life. But there are ups and downs to every new experience and, now that they're just about over, these last four days appear to have been filled with never-to-be-forgotten events, and many just as well left behind.

Most of us turned out for Frosh Orientation Day. That day we were shown around campus, given our schedules, and indoctrinated by the glowing words of the deans, Mr. Walgren, and student body president, Doug Treter. We left with a great image of the year to come, soon to be burst by an overload of homework and activities.

To get the year rolling, we elected our class officers. Bill McHale was chosen to lead us that first year with the aid of Tom Alexander, vice president; Julie Tucker, treasurer; Marcie Crockett, secretary and Carol Rossi, social secretary.

Student Control began that year, only to be democratically halted four years later. It was also the year we won the football championship! And remember the Homecoming Game with our lovely princess, Carolyn Rossi, and our first float?

As Sophs we elected Mike Hallock our president, Frank Colwell our V.P., Janet Hicks our treasurer, Julie Alves our secretary, and Nancy Hopper our social secretary.

We were getting into the swing of things by then. We successfully launched the Sophomore Sideshow, our second dance, with the huge polka-dotted seal. And, in spite of a mediocre football season, our Homecoming Princess, Joan Pierson looked terrific.

Then, finally, we became upper-classmen-big JUNIORS! We were almost there, we thought and then the hardest year of all swooped down on us. It was the year of homework, activities, and plans for the future. We were finally beginning to realize, with full impact, the importance of our years in high school, and the reality of the near future closed in on us. But it was perhaps one of the best years

too because of this realization and our fervent desire to have a good time.

Football didn't go so well that year but Carolyn Rossi rode our float, to win first in the float contest. And then we won the basketball tournament with our great team and coaches, and lots of spirit. Our first big dance was a success too, the Junior Prom. The theme was City by the Bay, and we entered over the Golden Gate bridge to see the gym transformed into the highlights of San Francisco.

Class leaders for that busy year were Jim Schrupp, president; Rich Fisher, vice president; Bev Davis, treasurer, Karyn Daniels, social secretary; and Kay Walgren, secretary. To end the year we held student body elections and Mike Hallock was elected president, with Nick McConnaughy, vice president; Janet Hicks, secretary; Pam Platt, social secretary; Bev. Davis, treasurer; Sonja Neblett, clubs commissioner; and, Rich Smith, chief justice. **医注射的图明** 如本些。

And then, Senior Hall was ours! We elected Mark Silliphant president; Rich Fisher, vice presi dent; Virginia Stone, secretary; Carolyn Shidler, treasurer; and, Kathy Maraglia, social secretary. With mixed feelings about leaving, began the fastest year imaginable.

Football was exciting this year with its all new backfield formation, if not successful. Individually, it is said, great ability appeared in many of the boys. Homecoming night came, and our float managed to last until it got off the field, anyway. Julie Alves was named our Queen and was crowned at the dance after the game. Her two beautiful attendants were Sherry Rossi and Cathy Steinbach.

We very successfully staged our class play, "Our Town," (this time with all seniors), with a phenomenal performance by Jeff Hunter, supported by Cheryl Block, Linda Hotes, Eric Neighbor, Bill Sommer, and Bix Whitcomb.

We conducted sucker sales, cake sales, came in lastin the Clothes Drive, and produced memorable flops, the Senior Extra and the Hootenanny. All in all though, it was a successful year. Many individuals won state-wide and local honors; several qualified for well-known scholarships.

Then came the end of the year . . . the final weeks. Colleges had sent their acceptance notices and everyone was more than ready for the final round of activities. The Senior Banquet, Bermuda Day, the Ball (Rhapsody in Blue), and now Baccalaureate, Commencement, and the All-Night.

The class of '64, it seems, always followed behind the big changes in poicy or activities at Acalanes. Thus, we were the guinea pigs for any experiment the school board, Max Rafferty, or the deans could dig up; and they thought of everything. One of these experiments was SMSG Math, soon to be abolished. Another was the CHEM study texts; another, student control. We also were the ones who were caught in the aftermath of previous mistakes and abuses. Thus the privilege of the senior

assembly was taken away, and the All-Night was almost ended. Radical changes were made in campaign policies too; no more lime on the hill, only a few posters and limited costumes. Even the tradition of Senior Hall was nearly ended and remains now, only as a tradition and not a reality.

But we were a class of firsts too. We were the first class (due credit given to Aklan) to hold (Continued on Page 5, Col. 4)

DON CLASS OF '64 REUNITES IN 1989

Editor's Note: The following article is a clipping taken from the LAFAYETTE SUN, dated June 12, 1989).

The twenty-fifth annual reunion of the Acalanes High School Alumnae Association, Class of '64, was held June 5, 1989, at the newest San Francisco Hilton. Through the efforts of the well-known leaders of San Francisco Society's the former Misses Hillyer, Hooper and Hicks, all of the hotel's services were free.

Recently returned from Paris were former students, Carol Bates, world known fashion designer of the House of Bates and former top model Rickele Hakala. Sandy Lee also came back from a sabbatical leave of absence from her teaching job at "alma mater" Acalanes.

Dennis Nasser, a millionaire now in Saudi Arabia, was seen walking in trailed by his harem. And what about Mark Silliphant, that intergalactic playboy of the Space Set?

Visitors from Washington, D.C., included Meg Knox, press secretary for the President, Sue Mariner, head of the Peace Corps in Jericho, and Wynne Furth, former head of the United States Treasury, who skillfully guided the finances of the nation without a mishap, after all of the books and records were somehow lost. Barbara Dodge (who has been called another "Margaret Chase Smith"), was accompanied by Secretary of State, Jeff Hunter. Sue Cardinet and Margy Morris, stars of the old classic "The Lunatic Fringe," hitch-hiked up from Los Angeles to be on hand. Lori Berger was also there. She currently can be seen in "Invasion of the Pygmies," the latest RKO-Golden Mayes version of the hit Broadway musical, in which Bonnie Baily also has a small part. Kathy Nordmeyer, who stars in "King Kong and Me" the series recently awarded the recognition of being the longest lasting series in the history of the industry, also attended.

ASSISTANT YELL LEADERS SELECTED LAST WEEK!

Tryouts for assistant yell leaders for the 1964-1965 school year were held after school, Monday, May 18, in the cafeteria.

Contestants were judged on spirit, appearance, stage appearance, and execution. Judges were Julie Alves, Pat Cole, Eric Neighbor, Holly Borowiak, two representatives from Miramonte, and Mr.

After the initial tryouts, Eric Neighbor announced that finals would be necessary. Eight finalists were chosen, and from those girls, Gretchen Jacobsen, Penny Prentice, Ellen Clark, and Marilee Wade emerged victorious.

The winners were each given a carnation; all did a routine together, head, Holly Borowiak included, and were then mobbed by cheering congratulators.

POM PON GIRLS CHOSEN — SUE

On Thursday, May 21, seven new pom pon girls were chosen for the 1964-65 sports' seasons. The judges graded the girls on twelve aspects of pomming. The scale ranged from a minimum of one to a maximum of five points on each of the qualifications, which included spirit and enthusiasm, neatness, coordination, timing, and originality.

Thirty girls from the freshman, sophomore and junior classes were judged by Lynnette Leonard, Ellen Clark, Debbie Fink, Kim Garrett, Carolyn Rossi, Sue Stiles, and Monnie Warner, Terry Palmquist from Miramonte, and Miss Hamburger.

After the long hours of waiting (tryouts lasted until 6:00 p.m.) winners were announced as: Juniors; Judy Guilkey, Carol Brester, Carol Nuoffer and Sue Fee; sophomores; Jane Favour and Laurie Vogt; and freshman; Linda DiSano.

Two Talented Dancers — Karyn and Sandy

More than likely, most people Ask Karyn anything, and the reply will always be complemented by a smile.

Karyn's likes include skiing, all outdoor sports, modern dance, and spirited and happy people. When asked if she had any dislikes she replied, "Not really!"

Karyn came to Acalanes from Fairview, and has been with us for four years. After graduation this year, she plans to go to Mills College. (Sorry boys-it's an all girls school.) Her major will probably be in Modern Dance or English. Karyn's ambition is to become a professional choreogra-

What began as a tragedy turned out to be the best thing that ever happened to Sandy. In 8th grade, her Orinda house was flooded, and her family was forced to move to Lafayette. When she entered Acalanes she found it much friendlier than she had expected and she is now very glad everything ended as it did.

Sandy's greatest dislikes are teachers who do not really know their business or who don't really like teaching. Her favorite class is Great Books because you can say anything or think anything without being condemned.

Next year, Sandy plans to attend DVC. She will remain there for two years and then transfer she and Carolyn Cory planned to Cal. She is doing it this way the choreography for this year's because she wants to work her way through college.

It is hard to imagine that Mike Hallock wants to be a psychologist, but that will be his probable career upon graduating from Harvard University. His choice of profession may have been stimulated by Mike's "interest in people," but it is rumored that it could have stemmed from observing Mr. Mayes in English (his favorite subject).

Although Mike had a little trouble wrenching himself from the duties of student body president, he managed to spend much of his spare time in sports activities. Thus Mike has lettered in track, basketball, football, and

election to the presidency.

As senior class president, a member of Student Control, twice member of Rally (Sergeant at Arms this year), and a member of Student Council for the past four years, Mark Silliphant has been far from inactive in student affairs at Acalanes.

Mark's favorite sports are golfing and body surfing, and he has also lettered in track. He plans to go down south after school is out to pursue surfing(?). The rest of Sue Pennington, Art Editor, has his summer will be spent in Texas, because his family is moving penses, under the supervision of been busiest of all taking photos. Mark plans to return to this area Cal at Berkeley fall with the hopes of becoming a surgeon. Mark's greatest wish would be to be able to remain in California.

> Mark likes the Beatles for no reason at all. Hemingway is his favorite author, but he dislikes reading. Quite a paradox! Mark also dislikes bleached blondes and animal cookies. (The story behind the animal cookies is too long, or maybe too embarrassing, to tell.) He feels all folk singers are phonies.

> Mark has set high goals for his future, which with a little luck and lots of work, he will surely

Dana — Tops In Science

Dana Vance is known by his classmates as a quiet and conscientious student. He excells in all subjects and was also an active member of the wrestling team, for which he received his Block

Dana is also a member of Spanish Honorary and C.S.F. He is interested in Physics and is one of the six students who have completed the four-year Science

Dana will go to the University of California at Berkeley next fall to major in Physics. He plans to do graduate work there, hoping to eventually earn a Ph.D. in

Last summer, Dana had the interesting experience of working at Cal in the Physics Lab under the National Science Foundation research program for high school students. The University subsequently hired him and Dana is now working part-time at Cal. He will continue working there this summer and as a student

Dana's remarkable achievements in the past insure a successful future in whatever he seeks to do.

Giggly Senior Loves Skiing

"Let's go skiing! Meet you at Sugar Bowl!" is Megan Knox' hue and cry. This popular senior is a ski buff, to say the least. Almost every weekend, during the ski season, Megan is schussing or christing down the slopes. She belongs to the Oakland Ski Club and is a reporter for the Club's paper, the "Upski."

Besides skiing, Meg loves Journalism and any public relation work, which she hopes to major in at San Jose State. Meg loves to people watch and to work with people. This love led to a job at an insurance company where she worked as a public relations

Meg has also had a varied experience with Journalism. She is an associate editor for the Blueprint and she writes a column for the Lafayette Sun, Acalanes Ac-

Her personality, which tends to go from one extreme to the other, ranges from a love of: laughter, the Chad Mitchell Trio, her family's "zoo" and especially to champion male skiers. She violently dislikes math, peanut butter, snobs and posterboards.

A Tough Artist — That's Randy

Randy Angella is a young man of contrasts.

He has been best, or at least most, known around Acalanes for his temper and temperament; like at the Pleasant Hill football game when he was knocked to his hands but crawled and bucked his way for 25 more yards. His senior year was his first and last at football, but he has been out all four years for wrestling and track. As for wrestling, he was top man in his weight class (165), took third in the league and has seldom been beaten at wrestling or at the low hurdles.

Despite his changeability and quick temper, Randy contrasts these qualities with varied and enviable abilities. He paints (and sells!) beautiful professional landscapes that would defy anyone's patience to do. Randy designed the cover, "Red Sails in the Sunset," for the Senior Banquet menu.

Randy also has been sports editor of Blueprint this year. He is teaching himself to play the guitar. His quick appreciation of novels, of physiology, and his advanced ability in architecture display some of his other strengths.

With this combination of talents Randy plans to major either in Engineering or Social Science at Cal Poly at Pomona, where his brother now attends.

Just looking at Randy, you'd never guess his abilities, outside of sports, in art, language, and science. You'd be more likely to expect him to hit you. And that's very striking

STUDENTS PRODUCE THEIR PLAYS

Five plays were put on by the on June 3rd and 4th during sixth period. They were "The Prisoner and the Chaplain" by Tony Ayres, "The Woman Who Cried Wolf" by Joe Collins, "The American Way" by Tina Linder, "Witch" by Elaine Luna, and "The Word is 'Stranger'" by Meg Troffey.

Each play took from five to thirteen minutes and was cast and directed by its author.

"The Prisoner and the Chaplain" involved a Chaplain's failure to help a condemned man. "The Woman Who Cried Wolf" delt in an interesting way with the same theme found in the pop- Mr. Reeves from those of the ular fable, "The Boy Who Cried whole class as being "those that Wolf." In "The American Way," an American girl learned to adapt expectations of success."

Pomponning — Her Favorite Pastime

The happy, smiling face of Carolyn Rossi was seen at all the football and basketball games this year. As a pom pon girl in her sophomore year, and the head pom pon girl this year, she has been kept very busy. Although one may think she would get used to the crowds and not be nervous, she was "scared stiff" during every routine, but still she says she really enjoyed it.

Caroyln has lived in this area all her life; her family has a cab-in at Lake Tahoe where she goes each summer. Loving to sew, water ski, and snow ski, she keeps herself quite busy. Her only dislikes are snobby, unhappy, and nosy people.

Her one desire has always been to be a blonde with blue eyes. But unless she buys blue contacts and lots of bleach, it is doubtful that her wish will come true. Carolyn feels her best year was her freshman year because she could get away with murder. (Oh?) Her junior year was the worst because it was academically the hardest. Also, she was lost without pom poming. Carolyn plans to attend DVC next year, after which she hopes to get a secretarial job.

LETTER TO THE ED.

Letter to the Editor:

When our new gymnasium was completed last fall, we were all overjoyed. Unfortunately there were some shortcomings too. Perhaps the most disturbing is the awful lighting of the building. This yellow glare makes our school color, royal blue, an awful purple; makes most people's complexions a sickly yellow, and lends an unhappy atmosphere to rigid discipline invokked upon the new project — an activities room. Linda Faye, Sonja Neblet, and our games.

Surely something could be done about this. Perhaps the contractor does not realize how important this is to us. Maybe a petition signed by everyone in the Acalanes Student Body would convince him; In any case I think some decisive action should be

These plays were chosen by

Funloving — But No Personality?

Acalanes with no personality? Well, according to Louise Molyneaux, it's Louise Molyneaux. But quite to the contrary, Louise is a happy person with a cheerful and sparkling personality.

Louise moved to Lafayette before her freshman year and has he is going to leave any related since then been busy on committees and various clubs such as doubt if Craig will escape Cal A.F.S., Dramadons, Fleur de Lys, Acalhonors, and C.S.F. ("when they changed the rules!"). Louise was a California State Scholar-Semi-Finalist, Miss Betty Crocker for Acalanes, and is presently busy as feature editor of the Acalanes Blueprint.

Camping, caring for little children, working on Blueprint, working with people, sewing, and snow skiing are a few of Louise's varied "likes." Her dislikes range from being interviewed (although she likes to interview others) to th Beatles.

Louise plans to attend Colorado State University at Fort Collins, where she will probably major in Home Economics.

Louise is affectionately called Louigi, Lou, or Louse by her friends. With vivid nicknames such as these, how could anyone think Louise anything but a happy and sparkling personality plus!

He's Famous For His Arguments

Perhaps Craig Johnston is best known at Acalanes as one who believes in strength of his convictions; yet also as one who avoids being dogmatic by keep-ing an open mind and by being aware of situations around him. Part of this general perceptiveness came in the form of Eduardo Camara, our foreign exchange student who is residing with the Johnston family.

Craig talks easily and spontaneously on a broad range of subjects. For example, while believing that Acalanes is an excellent school scholastically, Craig will add that he finds Acalanes rather stilted socially. Another candid remark, this time concerning GREAT SUMMER girls' legs, proves that Craig, at least, is not socially stilted.

Music plays a big part in Craig's life, and although he plays Who is the only senior girl at the drums, he enjoys all forms of music, especially jazz. Craig plays the drums in Advanced Band here at Acalanes and in the Northern Calif. Honor Orchestra.

Next year Craig is going to live in Berkeley and go to Cal, majoring in electronics. However, fields open for further study. I without learning a great deal, in

AND A GRAD!

Scotty Scott, who graduated from Acalanes in 1962, sang at the Off Broadway Nightclub in San Francisco for three weeks ending May 21. This was Scotty's first nightclub engagement. His performances included mostly rock and roll songs like 'What'd Say?" and "Louie, Louie."

Scotty is also a full-time student at the University of California at Berkeley where he majors in Business Administration. He plans to graduate in 1966 at which time he will either pursue a career in business or in singing.

Scotty has had previous experience singing in college and at Acalanes where he was a member of A Capella four four years.

IN STORE FOR '64 GRADS

Many Acalanes students are planning rewarding summer vacations this year. Seniors especially have more opportunities for travel or for special summer jobs than before and are taking great advantage of them.

Several seniors are in for especially profitable vacations They are working at summer camps where they can enjoy the sun and summer fun, profit from the experience of working with children, and still earn a salary. Some of these students are Terry Duffy, Laurie Marek, Carol Miller, Bix Whitcomb, and Vicki Whitehead. Trudy Mazaika will be working at the New Fleur de Lac camp at Lake Tahoe.

Carolyn Cory will have the responsibility of children as she plans to teach ballet to "about 15 children of all ages." Besides her teaching, Carolyn will be dancing with the San Francisco Ballet Company school.

A few students are planning to continue their studies this summer too. Nancy Jones is to attend Santa Barbara's summer session, which she enjoyed last year. Sue Wilson has been accepted to attend the Summer Workshop of Nations at La Honda, California. This programs is presented to provide outstanding high school students with education about the customs and culture of the peoples of Africa, Asia and Latin America. Sue will specialize on Africa, and will study under two foreign college students from Nigeria and Sierra Leon.

Acalanes will have representatives throughout the world this summer. Wynn Furth is traveling to Peru; Craig Porter will be in the Orient. One of our spokesmen ston; others are Karyn Daniels, Mary Ponting. Two graduates (to-be) will doubly profit from their summers abroad. Nancy Nagy is going to Sweden where she will work in a bakery and Grove Hummert will work with Dymo Corp. in England.

A couple of the many travelers in the U.S. will be Candee Zander who is going to the Worlds Fair in New York, and Megan Knox who will pack into the Sierras with her family.

Then their are the numerous graduates who will be working around Lafayette, Oakland, and San Francisco; and some who will go to summer school. Others will have an enjoyable summer just swimming, and sunning, and doing absolutely nothing. But all will have a wonderful vacation, as always.

The Tennis Team, under the direction of Mr. Smith, had ar exceptionally good year, taking second place in competition with the other schools under the Foothill League. They have held second place since 1960 but Mr. Smith declares that since next year's team will be just as strong as this year's, Acalanes has a good chance of taking first place

Among the top players were two Freshmen, Rick Goggin and Jeff Borowiak, who did well in singles competition, but also took second at a doubles game in the Foothill League Finals. Dave Lewis, Junior, qualified for the Foothill League Finals in a singles match, but lost. The big obstacle in the way of Acalanes this year were the two schools of Miramonte and another private school. The Tennis record of ten wins and two losses was not enough to push us into first.

At the awards assembly on May 28 both Coach Eaton and Coach Warren agreed that this was "a good track season," even though we did not place "as near the top in League competition" as both coaches would have preferred; however, Acalanes set several new inter-league records which next year's track team will be able to shoot for.

The match was lopsided in favor of Las Lomas in the early matches but the upper weights were for the Dons taking and final score was greatly in our favor.

> San Ramon was the final dual league meet for the Don team and they never showed too much strength throughout the meet. That clinched the dual meet title for the Dons, but th league meet was still to be held.

> It was at this meet that the Dons really came through. During the pre-meet conference the opposing coaches all voted against Acalanes in the seatings, which are a very important part of a meet this large

> Thus, the Don team went into the meet with a decided disadvantage but they still came through. We won the meet by a very small margin. We still had the league and the league meet championship.

> The only team that the Dons lost to during the season was Pleasant Hill. In this meet the Dons lost by only a few points.

It is interesting to note that in losing only one match the Dons beat Hayward for the first time Hayward has been beaten in five years.

It can be said that -Acalanes has one of the finest wrestling traditions in the county. They've placed no lower than second in the last eight years of wrestling.
